The provisions of Item 180 Series concerning the payment of mileage will not apply to cars which are moving via ST Rail System under rates published in tariffs, quotes or contracts that are identified as "zero mileage rates". In the event that the party responsible for the payment of freight charges associated with zero mileage rates is different than the party to whom the reporting marks for said cars are assigned, the car owner must secure mileage payments from the freight paying party.

<p>ITEM 182</p> <p style="text-align: center;">DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES</p> <p>B. Deductions for amounts of \$25.00 or less shall not be taken after the expiration of two (2) months and ten (10) days from the last day of the month the mileage was earned.</p> <p>2. Claims Issued By Private Car Owners To Railroads.</p> <p>A. A private car owner must, within twenty-four (24) months from the last day of the month the completed cycle was reported, present any claim for mileage allowance discrepancies, including incorrect rates or omissions, to the applicable rail carrier in the prescribed AAR format, as published in AAR Circular No. OT-3 Series in The Official Railway Equipment Register. Claims not presented in the required format will not be processed. The railroad receiving the claim must within the four (4) months from the date on which the claim was presented allow it in whole or in part, or decline it. The private car owner may reissue its claim, if applicable within four (4) months from the last day of the four (4) months' period allowed the railroad which handled the claim prior to reissuance. The railroad receiving the reissue claim must within four (4) months from the date of which the reissued claim was presented allow it in whole or in part or decline it. If the railroad fails to handle the original or reissued claim within the prescribed time limits, it will constitute a valid claim as last presented and must be honored by the railroad to which presented. Claim for amounts of \$25.00 per car per cycle or less shall not be issued. The \$25.00 limit is not applicable where no miles were reported for the railroad cycle.</p> <p>3. Claims by Owners-Lessors</p> <p>A. If a railroad takes a deduction against or issues an invoice to an owner-lessor for mileage allowed in error, including, but not limited to, mileage allowed at incorrect rates for any reason, but the erroneous allowance payment is not recoverable by the owner-lessor as defined below, the owner-lessor may present a claim for the recovery of the amounts deducted by the railroad or the cancellation of an unpaid invoice within two (2) years of receiving notice of the railroad's deduction or invoice. For application of this tariff provision, an owner-lessor may claim that an erroneous mileage payment is "not recoverable" only when (a) the erroneous mileage payment was actually paid or credited by the owner-lessor to a lessee (except those lessees whose primary business is the leasing of cars to entities other than those within a lessee's corporate family and who ship only incidentally) irrespective of whether the lessee subsequently paid or credited the mileage allowance payment to a sublessee; (b) the erroneous allowance payment cannot be recovered from the lessee because the lessee has declared bankruptcy or sought reorganization or is no longer a lessee of the owner-lessor; (c) the owner-lessor exercised timely efforts to recover the erroneous allowance payment beginning within ninety (90) days of receiving notice of the railroad's deduction or invoice; and (d) the owner-lessor undertook diligent collection efforts to recover the erroneous allowance payments until eight (8) months from the date of such notice or invoice (or until the earlier date of initiation of bankruptcy/reorganization proceedings), including making demands for payment and taking deductions against lessees' accounts.</p> <p style="text-align: center;">(Continued in next column)</p>	<p>ITEM 182</p> <p style="text-align: center;">DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES</p> <p>3. Claims by Owners-Lessors</p> <p>A. (Cont'd) Such a claim must be accompanied by a certificate assigned by an officer or other person specifically authorized to sign the certificate of the owner-lessor stating how the claim satisfied each of the requirements set forth above, together with documents reflecting the owner-lessor's collection efforts. If, using reasonable efforts, the railroad is unable to determine whether the lessee's primary business is the leasing of cars to entities other than those in the lessee's corporate family, it shall consult with the owner-lessor, which shall provide the railroad with any evidence of the lessee's shipping activities which may be available to the owner-lessor using reasonable efforts. The owner-lessor shall provide the railroad with an assignment of the owner-lessor's claims and rights to collect the amount not recovered upon payment of the claim of cancellation of the invoice by the railroad.</p> <p>B. If the railroad had deducted the amount of an erroneous allowance payment from an owner-lessor, the railroad must remit to the owner-lessor the amount deducted within four (4) months of its receipt of a properly presented, valid claim from the owner-lessor.</p> <hr/> <p>ITEM 185</p> <p style="text-align: center;">COMPUTATION OF MILEAGE (See Exceptions 1 through 6)</p> <p>1. Mileage will be computed on the basis of actual distance based on freight mileage tables of the individual lines parties to this tariff, lawfully on file, via the route of movement from station of origin or station at which received from connecting line to destination station or to stations at which delivered to connecting line without deduction of mileage through switching districts (see Note 1).</p> <p>2. When the transportation begins and ends, i.e., when a car is both loaded and unloaded, within a switching district, no mileage will be allowed. Mileage between an industry or public track and freight station at station of origin or destination will not be allowed.</p> <p style="text-align: center;">EXPLANATION OF NOTES</p> <p>1. The intent of the clause "without deduction of mileage through switching districts" is to insure mileage being allowed for the full distance the car moves, via route of movement from freight station of origin to freight station to which destined. When there are two or more freight stations on a road within a switching district, mileage will be paid to or from the station within such district at which the car is actually loaded or unloaded or at which it is received from or delivered to connecting line.</p> <p style="text-align: center;">(Continued on next page)</p>

Mileage on empty cars moving on revenue billing will not be included in the equalization account. Empty mileage accumulated on cars moving to and from repair facilities for modification under DOT mandated retrofit programs or for inspection and/or repair under FRA Emergency Order Nos. 16 and 17, O & M Circular No. 4, or AAR Circular Letter 7697 will not be included in the equalization account. Empty mileage accumulated on cars moving under AAR Early Warning letters to and from repair facilities associated with the removal of certain truck bolsters that were manufactured by the National Castings of Mexico facility in Sahagun, Mexico, will not be included in the equalization account. Except as outlined in Item 190 Series, paragraph 2 (c), no adjustments to loaded or empty mileage will be made in the equalization account for mileage caused by error in handling of the reporting railroad or of another railroad, or for mileage accumulated on cars moving on their own wheels to and from repair facilities due to railroad damage or for mileage accumulated due to longer routes for railroad convenience, detours and Surface Transportation Board Service Orders. Rail carriers will make equalization adjustments to the owners of excess reported on-line empty mileage on cars, they lease and operate under private marks, or cars of other lessees and/or owners operating on their line for company material, weed killer and similar service. Adjustments to loaded or empty mileage will be made in the AAR equalization account for apparent accounting errors in the total mileage reported for participating rail carriers under the following procedures. In the absence of appropriate adjustments being made by the AAR or a participating carrier for such accounting errors, a private car company or owner may request an appropriate adjustment for mileage summaries reported in error, from the involved rail carrier in the format prescribed by the AAR, provided such request is made within thirty (30) days of the forwarding of the monthly AAR "Year to Date Equalization Register", containing the alleged error, furnishing a duplicate of such request to the Secretary, Business Services, AAR. The rail carriers will have thirty (30) days from the date of such request in which to decline or make all or a portion of the requested adjustment, advising the Secretary of the handling accorded. <p align="right">(Continued in next column)</p>

<p style="text-align: center;">SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS</p>	<p style="text-align: center;">SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS</p>
<p>ITEM 195 (Cont'd)</p> <p style="text-align: center;">MILEAGE RATE ALLOWANCE ON TANK "T" AND HOUSE CAR "XT" (SEE ITEM 196 FOR EXPLANATION OF DESIGNATING SYMBOLS) (SEE NOTE 1)</p> <p style="text-align: center;">EXPLANATION OF NOTES</p> <p>2. For mileage allowance purposes, the service year of a car is calculated based upon year of construction of underframe. A car's first service year is the year built. Its second service year begins on January 1 of the year following the year built, with succeeding service years starting on January 1 of each following year. If the tank's service year exceeds 30, the car's service year is considered to be in excess of 30 regardless of year of construction of underframe. For those cars constructed without an underframe, the car's service year is calculated based upon year of construction of tank. Service year is determined by subtracting the year of construction (built/rebuilt) from the current calendar year, plus 1, e.g., (2000 - 1970) + 1 = 31, or Service Years 31 and over allowance bracket.</p> <p>3. For cars built prior to January 1, 1968 assignment of owned or leased cars to value groups will be determined by the undepreciated base classification value. In addition, capitalized additions and betterments shall be added to the value if not already included in the BCV system.</p> <p>4. Applies as follows:</p> <p>A. For cars built between January 1, 1968 and July 1, 1991, assignment of owned or leased cars to value groups will be determined by the original cost as represented to the original buyer by the manufacturer's invoice price at the time of original installation into service. In the case of a manufacturer-lessor, the fair market value or the value which was certified, or would have been certified, for investment tax credit purposes shall be substituted therefore.</p> <p>B. Assignment to value groups of cars placed into service after July 1, 1991 will be determined by the original cost of the car to the original buyer as stated in the manufacturer's invoice. In only two circumstances, owners may certify as alternative "true value" in lieu of invoice price: (a) manufacturers who retain cars for their own leasing service and (b) purchasers who can demonstrate that they contributed physical assets of significant value that were used by the manufacturer in fabricating a car, resulting in a reduction of the invoice price by more than \$1,000 per car below the price that otherwise would have been charged. For manufacturers "true value" is the price for which a car or group of cars manufactured as a group would have been sold in an arm's length transaction. For purchasers who have made a qualifying contribution to fabrication, "true value" is the invoice price plus the depreciated value of the contributed assets distributed over the cars for which the assets were used, subject to the same limitations on "true value" which would apply to a manufacturer.</p> <p style="text-align: center;">(Continued in next column)</p>	<p>ITEM 195 (Cont'd)</p> <p style="text-align: center;">MILEAGE RATE ALLOWANCE ON TANK "T" AND HOUSE CAR "XT" (SEE ITEM 196 FOR EXPLANATION OF DESIGNATING SYMBOLS) (SEE NOTE 1)</p> <p style="text-align: center;">EXPLANATION OF NOTES</p> <p>4. Applies as follows: (Cont'd)</p> <p>B. (Cont'd) "True value" shall not exceed the average price of similar cars registered in UMLER at invoice price within the most recent 12 months for which registration information is available in UMLER, adjusted for changes in the market values of new tank cars as reflected in average car prices. If the AAR determines by audit that a certified "true value" exceeds this value limit by an amount that causes a car to be placed in a higher allowance value bracket, the value of the car will be reduced to the appropriate value bracket. In addition, if the AAR determines by audit that a certified, "true value" exceeds this value limit by an amount that causes a car to be placed in allowance value bracket more than one bracket above the otherwise applicable bracket, excess allowances paid as a result of the over valuation shall be reimbursed to the paying railroads.</p> <p>Those owners who certify a "true value" in lieu of invoice price during the calendar year must provide to the AAR an officer's certificate at the end of the year stating that, based on all information available to the owner, the owner has complied with the terms of this item. Car owners must supply for entry into UMLER all information required for tank cars in the UMLER Specification Manual. Notwithstanding any other provision of this tariff item, "true value" will be subject to audit directly by the AAR.</p> <p>C. If applicable, initial into service transportation costs, capitalized original lining costs, capitalized additions and capitalized betterments shall be added to car values determined pursuant to paragraphs 4 (A) and 4 (B), above, if not already included in the value of the car. For cars built after January 1, 1988, capitalized inspection costs shall be added to the value, if applicable and if not already included in the value of the car. Values other than invoice price shall be identified in accordance with the current AAR UMLER format at the time cars are submitted to the Secretary, Business Services, AAR, for registration in the UMLER file (see Note 6, this item).</p> <p>D. The rebuilt year and rebuilt valuation of a private car will be utilized for the purpose of computing applicable mileage allowances subject to the following conditions:</p> <p>1. The car must be rebuilt in accordance with the current requirements of Rule 88, Section C of the Office Manual and Sections A & B of the Field Manual, AAR Interchange Rules, Application for official rebuilt status must be filed with the AAR Technical Services and written formal approval received prior to registering such car in the UMLER file with rebuilt age and valuation data.</p> <p style="text-align: center;">(Continued on next page)</p>

Applies as follows: (Cont'd)</p> <p>4. When a unit of property is removed from a car (i.e., partial retirement), the ledger value registered in UMLER shall be reduced by the original value of the unit removed.</p> <p>5. Any cost recovered under AAR Defect Car Billing, if applicable, must be deducted from the cost of an addition or betterment.</p> <p>7. Applies as follows:</p> <p>A. When an owner: (1) makes a valuation correction to the UMLER file; or (2) changes the mechanical designation of cars registered in the UMLER file; and such changes result in an increase or decrease in the mileage allowance rates, the Secretary, Business Services, AAR, will be so notified and the increase or decrease will be applied retroactively. Once cars have been reported to the UMLER file, any of the foregoing corrections or changes that result in a retroactive increase or decrease in the mileage allowance rates will be identified by the Secretary. The car owner is required to furnish the Secretary documented proof of the basis of the correction or change and advise as to any applicable mileage allowance adjustments which are required.</p> <p>B. Retroactive Mileage Allowance Decrease: Within five (5) months from the date of a change to the UMLER file resulting in a retroactive mileage allowance rate decrease, the owner will notify all using carriers of such decrease with either supporting details or a summary of the over-collections, with a copy to the Secretary. After receiving such notification, the using carrier shall deduct such amount(s), in the next open mileage reports to the car owner, plus fifteen (15) percent to reimburse the handling road for audit and associated administrative expenses. If the owner fails to send notification to the users within five (5) months, the Secretary shall notify carriers of the car initial(s) and number(s) involved and the user(s) shall make an adjustment, as described above.</p> <p>C. Retroactive Mileage Allowance Increase: Within five (5) months from the date of a change to the UMLER file resulting in a retroactive mileage allowance rate increase, the owner will notify all using carriers of such increase with either supporting details or a summary of the under-collections, with a copy to the Secretary. After receiving such notification, the using carriers shall add such amount(s) in their next open mileage reports to the car owner, less fifteen (15) percent to reimburse the handling roads for audit and associated administrative expense. SECTION 2 EXCEPTION TO APPLICATION AND RULES APPLIES ON CARS OTHER THAN TANK CARS
ITEM 555 (Cont'd)
ST RAIL SYSTEM (NOTE 3)
EXPLANATION OF NOTES
<ol style="list-style-type: none"> Designating symbols (mechanical designations) will be assigned to car owner or lessee by the Secretary, Technical Services, Association of American Railroads, upon written application. Mileage allowances named will also apply on cars carrying letters "R" and "S" affixed to the foregoing designating symbols. Mileage to be determined as follows: <ol style="list-style-type: none"> Mileage to be computed on the basis of the shortest distance over the routes of the ST Rail System, based on the freight mileage tables published in tariffs lawfully on file, from station of origin or station at which received from connecting line to destination station or to station at which delivered to connecting line. When the transportation begins and ends, i.e., when a car is both loaded and unloaded within a switching district, no mileage will be allowed. Mileage between an industry or public track and freight station at station of origin or destination will not be allowed. Empty cars will be moved over the ST Rail System, as provided in Item 615. No allowance will be made for empty movement of such cars. Except as otherwise provided above, the rules, allowances and other provisions of Section 2 of this tariff will apply.
EXCEPTIONS
<ol style="list-style-type: none"> Provisions of this item will not apply when the applicable freight tariff provides that shipper must supply equipment and that no mileage allowance will be paid. Mileage allowance provided in this item will not apply to new cars or newly acquired cars moving prior to their first loaded move in commercial service, nor will the allowance be paid on cars moving for sale or as scrap. Such movements will be subject to applicable rates. Ten (10.0) cents per loaded mile will be allowed on flat cars specially equipped with bulkheaded ends, and/or a steel "A" frame and/or steel center beam down the center and chains, cables and clamps providing adjustable tie-downs, or other appurtenances for handling packaged units of lumber or building products.
ITEM 560
ST RAIL SYSTEM
The provisions of Items 615 and 620 will not apply on privately-owned freight cars carrying markings DODX 39810 through 39829, or other depressed center flat cars equipped with permanently applied container or containers or framework as a shield for radioactive materials.

Reporting marks will be assigned for use on cars other than tank cars only by the Secretary, Business Services, Association of American Railroads. As a condition for the assignment and retention of reporting marks, applicants must be subscribers to the AAR Mechanical Interchange Agreement and all cars bearing such reporting marks must be properly registered in the Universal Machine Language Equipment Register (UMLER). 2. Application for use of cars bearing such reporting marks shall state the name of the owner (assignee of reporting marks) and lessee, if leased, and the station or stations and industry or industries at which loads are intended to originate, and the name of the first line haul carrier or carriers. The application will be transmitted by the applicant to the originating line haul carrier(s) for approval. Application for approval for shipper provided cars cannot be denied by the carriers except for reasons of safety, mechanical factors or inadequate storage space. 3. After reporting marks are approved, the cars may be used by the owner or lessee for the origination of traffic only at the station or stations on the carrier or carriers that granted application approval. As to use of the cars for the origination of traffic at some other station or stations, or some other carrier or carriers, application must be made by the owner or lessee to the originating carrier. 4. After reporting marks have been assigned, they may be used on any cars that meet the requirements of the AAR Mechanical Interchange Rules and which are properly registered in UMLER. 5. The number of cars of any type shall not be increased nor shall destroyed cars be replaced without specific authority granted by the originating line haul carrier(s). 6. Mileage allowance must be reported to the car owner (person or company at a single address, to whom the reporting marks are assigned) within one (1) month and ten (10) days from the last day of the month in which it is earned including payment for cars on hand at the end of that month. 7. <p>ITEM 606</p> <p align="center">DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES</p> <p>1. Deductions by Railroads to Private Car Owners:</p> <p>A. Mileage allowed in error, by a railroad, including but not limited to, mileage allowed at incorrect rates for any reason, may be deducted from the car owner's account within twenty-four (24) months from the last day of the month for which the mileage was reported as earned, but not later. A railroad may render an invoice for mileage allowed in error at any time within twenty-four (24) months from the last day of the month for which the mileage was reported as earned. Except as provided for in paragraph 3, an owner-lessor of a private car must remit within eight (8) months after the invoice is presented the entire amount of any invoice issued to it.</p> <p>B. Deductions for amounts of \$25.00 or less shall not be taken after the expiration of two (2) months and ten (10) days from the last day of the month the mileage was earned.</p> <p>2. Claims Issued by Private Car Owners to Railroads:</p> <p>A. A private car owner must, within twenty-four (24) months from the last day of the month the completed cycle was reported, present any claim for mileage allowance discrepancies, including incorrect rates to the applicable rail carrier in the prescribed AAR format, as published in AAR Circular No. CT-3 Series in the Official Railway Equipment Register. Claims not presented in required format will not be processed. The railroad receiving the claim must within four (4) months from the date on which the claim was presented allow it in whole or in part, or decline it. The private car owner may reissue its claim, if applicable, within four (4) months from the last day of the four (4) month period allowed the railroad which handled the claim prior to reissuance. The railroad receiving the reissued claim must within four (4) months from the date on which the reissued claim was presented allow it in whole or in part or decline it. If the railroad fails to handle the original or reissued claim within the prescribed time limits, it will constitute a valid claim as last presented and must be honored by the railroad to which presented. Claims for amounts of \$25.00 per car per cycle or less shall not be issued. The \$25.00 limit is not applicable where no miles were reported for the railroad cycle.</p> <p>3. Claims by Owners-Lessors:</p> <p>A. If a railroad takes a deduction against or issues an invoice to an owner-lessor for mileage allowed in error, including, but not limited to, mileage allowed at incorrect rates for any reason, but the erroneous allowance payment is not recoverable by the owner-lessor as defined below, the owner-lessor may present a claim for the recovery of the amounts deducted by the railroad or the cancellation of an unpaid invoice within two (2) years of receiving notice of the railroad's deduction or invoice.</p> <p align="center">(Continued in next column)</p>	<p>ITEM 606</p> <p align="center">DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES</p> <p>A. (Cont'd) For application of this tariff provision, an owner-lessor may claim that an erroneous mileage payment is "not recoverable" only when (a) the erroneous mileage payment was actually paid or credited by the owner-lessor to a lessee (except those lessees whose primary business is the leasing of cars to entities other than those within a lessee's corporate family and who ship only incidentally, irrespective of whether the lessee subsequently paid or credited the mileage allowance payment to a sublessee; (b) the erroneous allowance payment cannot be recovered from the lessee because the lessee has declared bankruptcy or sought reorganization or is no longer a lessee of the owner-lessor; (c) the owner-lessor exercised timely efforts to recover the erroneous allowance payment beginning within ninety (90) days of receiving notice of the railroad's deduction or invoice, and (d) the owner-lessor undertook diligent collection efforts to recover the erroneous allowance payments until eight (8) months from the date of such notice or invoice or until the earlier date of initiation of bankruptcy/reorganization proceedings, including making demands for payment and taking deductions against lessee's accounts. Such a claim must be accompanied by a certificate signed by an officer or other person specifically authorized to sign the certificate of the owner-lessor stating how the claim satisfied each of the requirements set forth above, together with documents reflecting the owner-lessor's collection efforts. If, using reasonable efforts, the railroad is unable to determine whether the lessee's primary business is the leasing of cars to entities other than those in the lessee's corporate family, it shall consult with the owner-lessor, which shall provide the railroad with any evidence of the lessee's shipping activities which may be available to the owner-lessor using reasonable efforts. The owner-lessor shall provide the railroad with an assignment of the owner-lessor's claims and rights to collect the amount not recovered upon payment of the claim or cancellation of the invoice by the railroad.</p> <p>B. If the railroad had deducted the amount of an erroneous allowance payment from an owner-lessor, the railroad must remit to the owner-lessor the amount deducted within four (4) months of its receipt of a properly presented, valid claim from the owner-lessor.</p>

(Continued in next column)			EXPLANATION OF NOTES		
			<p>1. Age of car is calculated upon year of construction. Age is determined by subtracting the year of construction (built/rebuilt) from the current calendar year plus 1, (e.g., <2000-1988> + 1 = 13, or 1 through 30 age bracket).</p> <p>2. (1) Assignment of owned or leased cars to value groups will be determined by the original buyer by the manufacturer's invoice price at the time of original installation into service. In the case of a manufacturer-lessor, the fair market value or the value which was certified, or would have been certified, for investment tax credit purposes shall be substituted therefore. In either of the above cases, initial into service transportation costs, capitalized original lining costs, capitalized additions and capitalized betterments shall be added to the value, if applicable, and if not already included in the original cost or the original fair market value figures. Values other than invoice price shall be identified in accordance with the current AAR UMLER format at the time cars are submitted to the Secretary, Business Services, AAR, for the registration in the UMLER file (see Note 5).</p> <p>(2) The rebuilt year and rebuilt valuation of a private car will be utilized for the purpose of computing applicable mileage allowances subject to the following conditions:</p> <p>A. The car must be rebuilt in accordance with the current requirements of Rule 88, Section C of the Office Manual, and Sections A and B of the Field Manual, AAR Interchange Rules. Application for official rebuilt status must be filed with the AAR Technical Services and written formal approval received prior to registering such car in the UMLER file with rebuilt age and valuation data.</p> <p>B. Assignment of owned or leased rebuilt cars to value groups will be determined as outlined in paragraph (1) herein, except that the maximum valuation of a rebuilt car shall not exceed the lesser of: 75% of the original cost of a comparable new car; or 75% of the calculated replacement cost of the rebuilt car prior to rebuilding, as computed per AAR Interchange Rule 107.</p>

<p style="text-align: center;">SECTION 2 RULES AND REGULATIONS APPLIES ON CARS OTHER THAN TANK CARS</p>	<p style="text-align: center;">SECTION 2 RULES AND REGULATIONS APPLIES ON CARS OTHER THAN TANK CARS</p>
<p>ITEM 621 (Cont'd)</p> <p style="text-align: center;">EXPLANATION OF NOTES</p> <p>3. All car ages and values submitted are subject to verification by the AAR, and audit by the AAR or the owner's independent public accountant upon reasonable request by the AAR. If the car owner elects to have the audit performed by its independent public accountant, such audit must be performed in a timely fashion in the manner prescribed by the AAR, will be performed at the car owner's expense and must be duly certified by the car owner's auditor as representing the true value of all cars included in such audit. Depreciation will be applied annually from the original date of construction or date rebuilt. Failure of the car owner to furnish the required car valuation data to the AAR UMLER file, to arrange for the requested audit, or to correct errors determined as a result of such audit, will result in such car(s) being assigned to the lowest applicable mileage allowance rate group.</p> <p>4. For cars built or rebuilt subsequent to December 31, 1977, all values reported to the AAR UMLER file must be stated in equivalent U.S. dollars based upon the applicable exchange rate at the time such cars were built or rebuilt. Subsequent capitalized additions and betterments reported to UMLER must also be stated in equivalent U.S. dollars at the time such improvements were made.</p> <p>5. (1) Into-service transportation costs are those freight charges associated with the movement of a car that is ready for its first load to the location of the car's original installation into service. Other transportation charges incurred during construction (e.g., to a facility which installs the original lining, etc.) may be included in the ledger value provided that the cost is capitalized.</p> <p>(2) A capital expenditure is an expenditure intended to benefit future periods in contrast to a revenue expenditure/current expense which benefits a current period. It is an addition to a capital asset and is initially reflected on the balance sheet. A capital expenditure normally is subject to depreciation in future years.</p> <p>(3) A. An addition or betterment has the effect of:</p> <ol style="list-style-type: none"> 1. extending the useful life of a car beyond the life projected when the car was entered into service; or 2. increasing a car's normal use beyond that which was in effect when the car was entered into service; or 3. lowering the operating costs beyond that which was in effect at the time the car was entered into service (e.g., enhance safety, etc.). <p style="padding-left: 40px;">Any repair that maintains a car in its customary state of operating efficiency is NOT an addition or betterment.</p> <p>B. An addition is the installation of a new component of a car (not a replacement) which meets the above tests. The value registered in UMLER shall be the cost of the component added, including labor.</p> <p style="text-align: center;">(Continued in next column)</p>	<p>ITEM 621 (Cont'd)</p> <p style="text-align: center;">EXPLANATION OF NOTES</p> <p>(3) C. A betterment is the replacement of a component of a car with a superior component. The value registered in UMLER for a betterment should not exceed the cost of the superior component, including labor minus (1) the original value of the component that was replaced (i.e., retired) and (2) the cost (i.e., expense) incurred in removing the old component.</p> <p>D. When a unit of property is removed from a car (i.e., partial retirement), the ledger value registered in UMLER shall be reduced by the original value of the unit removed.</p> <p>E. Any cost recovered under AAR Defect Car Billing, if applicable must be deducted from the cost of an addition of betterment.</p> <p>6. 1. When an owner: (1) makes a valuation correction to the UMLER file; or (2) changes the mechanical designation of cars registered in the UMLER file; and such changes result in an increase or decrease in the mileage allowance rates, the Secretary, Business Services, AAR, will be so notified and the increase or decrease will be applied retroactively. Once cars have been reported the UMLER file, any of the foregoing corrections or changes that result in a retroactive increase or decrease in the mileage allowance rates will be identified by the Secretary. The car owner is required to furnish the Secretary documented proof of the basis of the correction or change and advise as to any applicable mileage allowance adjustments which are required.</p> <p>2. Retroactive Mileage Allowance Decrease: Within five (5) months from the date of a change to the UMLER file resulting in a retroactive mileage allowance rate decrease, the owner will notify all using carriers of such decrease with either supporting details or a summary of the over-collections, with a copy to the Secretary. After receiving such notification, the using carrier shall deduct such amount(s), in the next open mileage reports to the car owner, plus fifteen (15) percent to reimburse the handling road for audit and associated administrative expenses. If the owner fails to send notification to the users within five months, the Secretary shall notify carriers of the car initial (s) and number(s) involved and the user(s) shall make an adjustment, as described above.</p> <p>3. Retroactive Mileage Allowance Increase: Within five (5) months from the date of a change to the UMLER file resulting in a retroactive mileage allowance rate increase, the owner will notify all using carriers of such increase with either supporting details or a summary of the under-collections, with a copy to the Secretary. After receiving such notification, the using carriers shall add such amount (s) in their next open mileage reports to the car owner, less fifteen (15) percent to reimburse the handling roads for audit and associated administrative expense. No retroactive mileage allowance rate increase will be applicable if the owner fails to notify the using carriers of such increase within five (5) months from the date of a change to the UMLER file.</p>
